

POORNA DEVI M

Cyber Security Engineer

Coimbatore , Tamil Nadu , India

 poorna7708@gmail.com  +91-9342568524  <https://www.linkedin.com/in/poorna-devi-m-snsinstitutions>

SUMMARY

A Dedicated professional with a strong sense of responsibility and a consistent approach to problem-solving, focused on creating effective solutions. Committed to delivering high-quality work while upholding a strong work ethic, demonstrating reliability and integrity in every task. Passionate about continuous learning and growth in cybersecurity, with a clear ambition to become a Cybersecurity Expert. Eager to contribute skills and knowledge to drive success in challenging environments.

EDUCATION

SNS College of Engineering

B.E., Computer Science and Engineering (Internet of Things and Cyber Security including Block Chain Technology) - CGPA 8.30 (till V Sem)

2023-2027

Coimbatore, Tamil Nadu

Palani Gounder Hr.Sec School

Higher Secondary (Stream: PCM, CS) - 82.16%

2023

Coimbatore, Tamil Nadu

Annai Matriculation School

Secondary - SSLC

2020

Coimbatore, Tamil Nadu

SKILLS

- Programming - c, c++, Python
- OS: Windows, Linux
- AI: Machine Learning, Computer Vision, PyTorch, n8n, Streamlit, CrewAI/LangChain, OpenAI
- Cybersecurity: Vulnerability Assessment, Bug Analysis, Security Reporting
- Tools & Platforms: Nmap, Wireshark, Google Colab, GitHub, Figma, Canva

INTERNSHIPS

Teachnook

Cyber Security Intern

Aug 2024 - Sept 2024

- Worked on developing a Network Security tool

TechnoHacks

Cyber Security Intern

Sept 2024

- Packet sniffing and Tests vulnerabilities in a website

Cognifyz Technology

Python Development Intern

Jan 2025 - Feb 2025

Prompt Infotech

Cyber Security Intern

June 2025

- Finding, analysing and reporting various Bugs

CERTIFICATIONS

- NPTEL – Network Security
- Cyber Security Workshop – Cognifyz
- Phishing Attack Workshop
- Microsoft Azure AI Fundamentals
- Databricks Generative AI Fundamentals
- AWS Cloud Practitioner Essentials
- Cloud Computing
- NPTEL – Database Management System
- Python Programming

PROJECTS

Phishing Website Detector

- Developed a Python-based tool to identify phishing websites using URL and content analysis.
- Extracted features and classified sites as safe or suspicious.
- **Tech Stack:** Python, BeautifulSoup

Packet Sniffer

- Captured and analyzed network packets using Wireshark.
- Inspected TCP/IP protocols and identified anomalies in traffic
- **Tech Stack:** Wireshark

AI Workflow Automation using n8n

- Built an automated workflow using n8n to process data and trigger actions across integrated services.
- **Tech Stack:** n8n, OpenAI API, Webhooks

Agricultural Machine Rental

- Developed a platform connecting farmers with machinery owners for booking and scheduling equipment.
- **Tech Stack:** HTML, CSS, JavaScript, Python (Flask) / Node.js, MySQL, Google Maps API

AI Bill Management Agent

- Built an AI system to extract and categorize bill data using a multi-agent workflow.
- **Tech Stack:** Python, CrewAI, OpenAI

Streamlit AI App

- Created an interactive AI web app for real-time user input and responses.
- **Tech Stack:** Python, Streamlit, OpenAI API

AI-Based CCTV Video Analysis using YOLO

- Developed a real-time object detection system using YOLO on CCTV video streams.
- Performed frame processing, object tracking, and detection analysis.
- **Tech Stack:** Python, YOLO, OpenCV
